"undertaking"	has the meaning given by section 259 of the Companies Act 1985 as amended by section 22 of the Companies Act 1989.

2. Any words or expressions used in the Utilities Act 2000, Part I of the Act or the Energy Act 2004 shall, unless the contrary intention appears, have the same meaning when used in the standard conditions.
3. Except where the context otherwise requires, any reference to a numbered standard condition (with or without a letter) or Schedule is a reference to the standard condition or Schedule (with or without a letter) bearing that number in this licence, and any reference to a numbered paragraph (with or without a letter) is a reference to the paragraph bearing that number in the standard condition or Schedule in which the

Note: Consolidated conditions are not formal Public Register documents and should not be relied on.

reference occurs, and reference to a Section is a reference to that Section in these standard conditions.

4. These standard conditions shall have effect as if in relation to references to a licence holder who is a natural person, the words "it", "its" and "which" there are substituted the words "he", "him", "his" and "whom", and cognate expressions shall be construed accordingly.
5. Except where the context otherwise requires, a reference in a standard condition to a paragraph is a reference to a paragraph of that condition and a reference in a paragraph to a sub-paragraph is a reference to a sub-paragraph of that paragraph.
6. Any reference in these standard conditions to:
 - (a) a provision thereof;
 - (b) a provision of the standard conditions of electricity supply licences, or
 - (c) a provision of the standard conditions of electricity distribution licences,
 - (d) a provision of the standard conditions of electricity transmission licences,
 - (e) a provision of the standard conditions of electricity interconnector licences, or
 - (f) a provision of the conditions of the electricity system operator licence,

shall, if these standard conditions or the standard conditions in question come to be modified, be construed, so far as the context permits, as a reference to the corresponding provision of these standard conditions or the other standard conditions in question as modified.

7. In construing the standard conditions, the heading or title of any standard condition or paragraph shall be disregarded.
8. Any reference in a standard condition to the purposes of that condition generally is a reference to the purposes of that condition as incorporated in this licence and as incorporated in each other licence under section 6(1)(a) of the Act (whenever granted) which incorporates it.

Note: Consolidated conditions are not formal Public Register documents and should not be relied on.

9. Where any obligation under in or pursuant to the licence is required to be performed by a specified date or within a specified period, and where the licensee has failed so to perform by such date or within such period, such obligation shall continue to be binding and enforceable after the specified date or after the expiry of the specified period (but without prejudice to all rights and remedies available against the licensee by reason of the licensee's failure to perform by that date or within that period).
10. Anything required by or under these standard conditions to be done in writing may be done by facsimile transmission of the instrument in question or by other electronic means and, in such case:
 - (a) the original instrument or other confirmation in writing shall be delivered or sent by pre-paid first-class post as soon as is reasonably practicable, and
 - (b) where the means of transmission had been agreed in advance between the parties concerned, in the absence of and pending such confirmation, there shall be a rebuttable presumption that what was received duly represented the original instrument.
11. The definitions referred to in this condition may include some definitions which are not used or not used exclusively in Sections A and B (which Sections are incorporated in all generation licences). Where:
 - (a) any definition is not used in Sections A and B, that definition shall, for the purposes of this licence, be treated:
 - (i) as part of the standard condition or conditions (and the Section) in which it is used;
 - (ii) as not having effect in the licence until such time as the standard condition in which the definition is used has effect within the licence in pursuance of standard condition 2 (Application of Section C (Supplementary Conditions for Scotland)) or standard condition 3 (Application of Section D (Supplementary Conditions for Nuclear

Note: Consolidated conditions are not formal Public Register documents and should not be relied on.

- Generators));
- (iii) as not having effect in the licence until such time as the standard condition in which the definition is used has effect within the licence in pursuance of that standard condition;
- (b) any definition which is used in Sections A and B is also used in one or more other Sections:
- (i) that definition shall only be modifiable in accordance with the modification process applicable to each of the standard conditions in which it is used; and
 - (ii) if any such standard condition is modified so as to omit that definition, then the reference to that definition in this condition shall automatically cease to have effect.

Note: Consolidated conditions are not formal Public Register documents and should not be relied on.

Condition 2. Application of Section C (Supplementary Conditions for Scotland)

1. Where the Secretary of State provides, by a scheme made under Schedule 7 to the Utilities Act 2000, for Section C (in whole or in part) to have effect within this licence:
 - (a) paragraphs 4 to 8 shall cease to be suspended and shall have effect in the licensee's licence; and
 - (b) the licensee shall be obliged to comply with the requirements of Section C (in whole or, as the case may be, in part) of this licence,from the date the said scheme takes effect.
2. Until -
 - (a) the Secretary of State provides, by a scheme made under Schedule 7 to the Utilities Act 2000, for Section C (in whole or in part) to have effect within this licence; or
 - (b) the Authority has issued to the licensee a direction pursuant to paragraph 4,the standard conditions in Section C (in whole or, as the case may be, in part) shall not have effect within this licence; and the licensee shall not be obliged to comply with any of the requirements of Section C (in whole or, as the case may be, in part) of this licence.
3. Except where paragraph 1 applies to the licensee, paragraphs 4 to 8 of this condition shall be suspended and shall have no effect in this licence until such time as the Authority issues to the licensee a notice in writing ending the suspension and providing for those paragraphs to have effect in this licence with effect from the date specified in the notice.

Note: Consolidated conditions are not formal Public Register documents and should not be relied on.

4. The Authority may issue a direction (a “Section C Direction”). Where the Authority has issued to the licensee a Section C Direction the standard conditions in Section C (in whole or, as the case may be, in part) shall have effect within this licence from the date specified in the direction; and the licensee shall be obliged to comply with the requirements of Section C (in whole or, as the case may be, in part) to the extent and subject to the terms specified in such direction.
5. A Section C Direction may specify that the standard conditions in Section C (in whole or in part) have effect in this licence.
6. The Authority may, with the consent of the licensee:
 - (a) vary the terms (as set out in the Section C Direction or elsewhere) under which Section C (or part or parts thereof) has effect in this licence; or
 - (b) provide for Section C (or part or parts thereof) to cease to have effect in this licence.
7. The variation or cessation provided for in paragraph 6 shall take effect from the date specified in the variation or cessation notice given to the licensee by the Authority.
8. With effect from the date of cessation referred to in paragraph 7, paragraphs 4 to 7 of this condition shall be suspended and shall cease to have effect in this licence, but the Authority may at any time thereafter give to the licensee a notice ending the suspension and providing for those paragraphs to have effect again in this licence with effect from the date specified in the notice.

Note: Consolidated conditions are not formal Public Register documents and should not be relied on.

Condition 3. Application of Section D (Supplementary Conditions for Nuclear Generators)

1. Where the Secretary of State provides, by a scheme made under Schedule 7 to the Utilities Act 2000, for Section D (in whole or in part) to have effect within this licence:
 - (a) paragraphs 4 to 8 shall cease to be suspended and shall have effect in the licensee's licence; and
 - (b) the licensee shall be obliged to comply with the requirements of Section D (in whole or, as the case may be, in part) of this licence,from the date the said scheme takes effect.
2. Until -
 - (a) the Secretary of State provides, by a scheme made under Schedule 7 to the Utilities Act 2000, for Section D (in whole or in part) to have effect within this licence; or
 - (b) the Authority has issued to the licensee a direction pursuant to paragraph 4,the standard conditions in Section D (in whole or, as the case may be, in part) shall not have effect within this licence; and the licensee shall not be obliged to comply with any of the requirements of Section D (in whole or, as the case may be, in part) of this licence.
3. Except where paragraph 1 applies to the licensee, paragraphs 4 to 8 of this condition shall be suspended and shall have no effect in this licence until such time as the Authority issues to the licensee a notice in writing ending the suspension and providing

Note: Consolidated conditions are not formal Public Register documents and should not be relied on.

for those paragraphs to have effect in this licence with effect from the date specified in the notice.

4. The Authority may issue a direction (a “Section D Direction”). Where the Authority has issued to the licensee a Section D Direction the standard conditions in Section D (in whole or, as the case may be, in part) shall have effect within this licence from the date specified in the direction; and the licensee shall be obliged to comply with the requirements of Section D (in whole or, as the case may be, in part) to the extent and subject to the terms specified in such direction.
5. A Section D Direction may specify that the conditions in Section D (in whole or in part) are to have effect in this licence.
6. The Authority may, with the consent of the licensee:
 - (a) vary the terms (as set out in the Section D Direction or elsewhere) under which Section D (or part or parts thereof) has effect in this licence; or
 - (b) provide for Section D (or part or parts thereof) to cease to have effect in this licence.
7. The variation or cessation provided for in paragraph 6 shall take effect from the date specified in the variation or cessation notice given to the licensee by the Authority.
8. With effect from the date of cessation referred to in paragraph 7, paragraphs 4 to 7 of this condition shall be suspended and shall cease to have effect in this licence, but the Authority may at any time thereafter give to the licensee a notice ending the suspension and providing for those paragraphs to have effect again in this licence with effect from the date specified in the notice.

Note: Consolidated conditions are not formal Public Register documents and should not be relied on.

Condition 4. Not used.

Note: Consolidated conditions are not formal Public Register documents and should not be relied on.

Electricity Generation Licence: Standard Conditions - Consolidated to 28 March 2024

PART II – SECTION B : GENERAL

Condition 5. Compliance with Grid

1. The licensee shall comply with the requirements of the Grid Code in so far as applicable to it.
2. The Authority may (following consultation with the ISOP and any transmission licensee likely to be affected) issue directions relieving the licensee of its obligation under paragraph 1 in respect of such parts of the Grid Code and to such extent and subject to such conditions as may be specified in those directions.

Note: Consolidated conditions are not formal Public Register documents and should not be relied on.

Electricity Generation Licence: Standard Conditions - Consolidated to 28 March 2024

Condition 6. Compliance with Distribution Codes

1. The licensee shall comply with the provisions of every Distribution Code in so far as applicable to it.
2. The Authority may (following consultation with the licensed distributor responsible for any relevant Distribution Code and any authorised electricity operator directly affected thereby) issue directions relieving the licensee of its obligation under paragraph 1 in respect of such parts of any relevant Distribution Code and to such extent and subject to such conditions as may be specified in those directions.

Condition 7. Security Arrangements

1. Insofar as the licensee shall construct or operate a generating station in England and Wales, the licensee shall comply with the provisions of the Fuel Security Code and such provisions shall have effect as if they were set out in this licence.
2. In this condition:

“Fuel Security Code”

means the document of that title designated as such by the Secretary of State as from time to time amended.

Condition 8. – Not Used

Not Used

Condition 9. Balancing and Settlement Code and NETA Implementation

1. Insofar as the licensee shall construct or operate a generating station, the licensee shall be a party to the BSC Framework Agreement and shall comply with the BSC.
2. The licensee shall comply with the programme implementation scheme established in accordance with paragraph 3, as modified from time to time in accordance with paragraph 5.
3. The programme implementation scheme is a scheme designated by the Secretary of State setting out the steps, including without limitation steps as to the matters referred to in paragraph 4, to be taken (or procured) by the licensee (and/or by authorised electricity operators) which are, in the Secretary of State's opinion, appropriate in order to give full and timely effect to:
 - (a) any modifications made to this licence and to the licences of authorised electricity operators by the Secretary of State pursuant to the power vested in him under section 15A of the Act;
 - (b) any conditions imposed by any exemption from the requirement to hold any such licence; and
 - (c) the matters envisaged by such modifications and conditions.
4. The programme implementation scheme may include provisions, *inter alia*,
 - (a) to secure or facilitate the amendment of any of the core industry documents;
 - (b) to secure that any systems, persons or other resources employed in the implementation of the Pooling and Settlement Agreement may be employed in the implementation of the BSC;
 - (c) for the giving of the indemnities against liabilities to which parties to the Pooling and Settlement Agreement may be exposed;
 - (d) for securing the co-ordinated and effective commencement of implementation of and operations under the BSC, including the testing, trialling and start-up of

the systems, processes and procedures employed in such implementation and employed by authorised electricity operators and others in connection with such operations;

- (e) for co-ordinating the administration and implementation of the BSC and the administration of the Pooling and Settlement Agreement;
 - (f) for the licensee to refer to the Authority for determination, whether of its own motion or as provided in the programme implementation scheme, disputes, as to matters covered by the scheme, between persons who are required (by conditions of their licences or exemptions) or who have agreed to comply with the scheme or any part of it; and
 - (g) for the Authority, in the circumstances set out in the scheme, to require that consideration be given to the making of a proposal to modify the BSC and, if so, to require the making of such proposal in the manner set out in the scheme, such power to be exercisable at any time within the period of 12 months after the effective time.
5. The Secretary of State:
- (a) may at any time direct, in accordance with the provisions of the programme implementation scheme, that the programme implementation scheme be modified in the manner set out in such direction, in order to give (or continue to give) full and timely effect to the matters described in paragraph 3.
 - (b) shall serve a copy of any such direction on the licensee, and thereupon the licensee shall comply with the scheme as modified by the direction.
6. If there is any conflict between the requirements contained in the programme implementation scheme pursuant to paragraph 4(a) and/or imposed on the licensee by paragraphs 2 and 5 of this condition, and those imposed on the licensee by any other condition, the provisions of paragraphs 4(a), 2 and/or 5 (as appropriate) shall prevail.
7. Subject to paragraph 7A without prejudice to paragraph 2, the licensee shall use all reasonable endeavours to do such things as may be requisite and necessary in order to

give full and timely effect to the modifications made to this licence as determined by the Secretary of State pursuant to the power vested in him under section 15A of the Act (and to give full and timely effect to the matters envisaged by such modifications).

- 7A. In the event of any conflict between the Energy Market Investigation (Electricity Transmission Losses) Order 2016 and the BSC with respect to the calculation of the Transmission Loss Factor (as defined in the BSC), the licensee's charges shall be calculated in accordance with the provisions set out in Schedule 1 to the Energy Market Investigation (Electricity Transmission Losses) Order 2016. This paragraph 7A will cease to have effect once a modification proposal reflecting the terms set out in Schedules 1 and 2 to The Energy Market Investigation (Electricity Transmission Losses) Order 2016 has been implemented.

8. In this condition:

"BSC"	means the Balancing and Settlement Code required to be in place, pursuant to the electricity system operator licence granted to the ISOP, as from time to time modified.
"BSC Framework Agreement"	means the agreement of that title, in the form approved by the Secretary of State, by which the BSC is made contractually binding between the parties to that agreement, as from time to time amended with the consent of the Secretary of State.
"core industry documents"	mean those documents which: <ul style="list-style-type: none"> (a) in the Secretary of State's opinion are central industry documents associated with the activities of the licensee and authorised electricity operators, the subject matter of

which relates to or is connected with
the BSC or the Balancing and
Settlement arrangements, and

- (b) have been so designated by the
Secretary of State.

"effective time"

means the start of the first period for trading
under the BSC as determined by the
Secretary of State.

Condition 10. Change Co-ordination for BSC

1. Insofar as the licensee shall construct or operate a generating station, the licensee shall take all reasonable measures to secure and implement (consistently with the procedures applicable under or in relation to the core industry documents to which it is party (or in relation to which it holds rights in respect of amendment), as modified or replaced from time to time), and shall not take any steps to prevent or unduly delay, changes to those documents, such changes being changes which are appropriate in order to give full and timely effect to and/or in consequence of any modification which has been made to the BSC.
2. For the purposes of paragraph 1, core industry documents has the meaning given in paragraph 8 of standard condition 9 (Balancing and Settlement Code and NETA Implementation).

Condition 11. Ancillary Services

1. The licensee shall from time to time upon request by the ISOP offer terms for the provision by the licensee of ancillary services from any operating generation set of the licensee.
2. The licensee shall at any time upon request of the Authority provide to the Authority a report containing details of:
 - (a) prices offered pursuant to paragraph 1 for the provision of ancillary services from each generation set of the licensee; and
 - (b) an explanation of the factors justifying the prices offered including (without limitation) details of the licensee's costs associated with making available such ancillary services in conformity with the Grid Code and of providing the same to the ISOP.

Condition 12: Duty to cooperate

1. This condition shall apply where the licensee has entered into a framework agreement or otherwise acceded to an Industry Code.
2. The licensee will cooperate with the Authority and/or any person(s) appointed by the Authority or appointed pursuant to a direction of the Authority, to undertake any reasonable requests in relation to planning, project assurance and/or coordination/systems integration in order to give full effect to the conclusions of a Significant Code Review.
3. Cooperation for the purposes of condition 12(2) may include but not be limited to:
 - a) the sharing of such information as reasonable, and constructive participation in industry engagement in order to undertake appropriate planning of changes to IT systems or industry standard operational processes system changes pursuant to the conclusions of a SCR;
 - b) the provision of such data as may be identified and reasonably requested in order to undertake testing and/or the population of any new central systems;
 - c) the preparation and cleansing of such data as may reasonably be requested in order to facilitate live operation of the new central system;
 - d) the provision of test scripts and results of any testing as may be requested by any person appointed to assure the success of any testing;
 - e) all reasonable steps to:
 - i) meet key programme milestones for the completion of any action(s) assigned to the licensee;
 - ii) adhere to any remedial plan put in place to address any issues, delays or slippage that may impact the licensee's ability to meet programme milestones, to the extent that failure to do so may jeopardise the successful and timely implementation of the programme;
 - iii) identify any dependencies that the licensee may have upon agents or other third-parties and secure the necessary support from such parties; and,
 - iv) promptly escalate and/or resolve any disputes that if unresolved may jeopardise the fulfilment of these obligations.

Interpretation

4. In this condition:

Significant Code Review means a review of matters in relation to its principal objective and/or general duties (under section 3A of the Electricity Act or section 4AA of the Gas Act), statutory functions and/or relevant obligations arising under EU law, which the Authority considers are likely to relate to one or more of the documents referred to in this condition, or to which the licensee is required under this licence to be a party, and concerning which the Authority has consulted upon and issued a Notice to the parties stating that the review will constitute a Significant Code Review.

Industry Code means any and all of the following:

- a) the Grid Code;
- b) the Distribution Code;
- c) the Connection and Use of System Code (CUSC);
- d) the Balancing and Settlement Code (BSC);
- e) the System Operator – Transmission Owner Code (STC)

Condition 13. Provision of Information to the Authority

1. Subject to paragraphs 2 and 4, the licensee shall furnish to the Authority, in such manner and at such times as the Authority may reasonably require, such information and shall procure and furnish to it such reports, as the Authority may reasonably require or as may be necessary for the purpose of performing:
 - (a) the functions conferred on it by or under the Act; and
 - (b) any functions transferred to or conferred on it by or under the Utilities Act 2000.
2. The licensee shall not be required by the Authority to furnish it under this condition with information for the purpose of the exercise of its functions under section 47 of the Act.
3. The licensee shall, if so requested by the Authority, give reasoned comments on the accuracy and text of any information or advice (so far as relating to its activities as holder of an electricity generation licence) which the Authority proposes to publish pursuant to section 48 of the Act.
4. This condition shall not require the licensee to produce any documents or give any information which it could not be compelled to produce or give in evidence in civil proceedings before a court.
5. The power of the Authority to call for information under paragraph 1 is in addition to the power of the Authority to call for information under or pursuant to any other condition. There shall be a presumption that the provision of information in accordance with any other condition is sufficient for the purposes of that condition, but that presumption shall be rebutted, if the Authority states in writing that in its opinion such further information is, or is likely to be, necessary to enable it to exercise functions under the condition in question.

6. Except where the licensee has Section C in effect in its licence, prior to the licensee commencing:

(a) the construction or operation of a generating station in Scotland; or

(b) the construction or operation of a nuclear generating station;

the licensee shall notify the Authority in writing of such proposed construction or operation, such notification to include the size and location of the proposed construction or operation.

Condition 14. Compulsory Acquisition of Land etc.

1. This condition shall have effect and come into operation for the purpose of this licence on and from 1 May 2007.
2. The powers and rights conferred by or under the provisions of Schedule 3 to the Act (Compulsory Acquisition of Land etc. by Licence Holders) shall have effect in relation to the licensee to enable the licensee to carry on the activities authorised by this licence and which relate to:

- (a) the construction or extension of a generating station;
- (b) the operation of a generating station; and/or
- (c) the installation, inspection, maintenance, adjustment, repair, alteration, replacement or removal of electric lines, and electrical plant associated with them, and any structures for housing or coverings such lines or plant, connecting a generating station with:
 - (i) the national electricity transmission system; or
 - (ii) a distribution system-,

including, for the avoidance of doubt, whether these activities in sub-paragraph (c) are to be carried out by the licensee or another licence holder.

3. In paragraph 2 above:
 - (a) the references to “generating station” are to an electricity generating station which:
 - (ii) has, or will have when its construction or extension is completed, a capacity of not less than 50 megawatts or such other capacity as

may be specified in relation thereto by order of the Secretary of State under section 36(3) of the Act;

- (iii) is, or will be when its extension or construction is completed, operated by or for the licensee;
- (b) “extension” in relation to a generating station includes the use by the person operating the station of any land (wherever situated) for a purpose directly related to the generation of electricity by that station.

Condition 15. Other powers etc.

1. This condition shall have effect and come into operation for the purpose of this licence on and from 1 May 2007.

2. The powers and rights conferred by or under the provisions of Schedule 4 to the Act (Other Powers etc. of Licence Holders) shall, subject to paragraph 3 and 4 below, have effect to enable the licensee to carry on its authorised activities and which relate to:
 - (a) the construction or extension of a generating station;

 - (b) the operation of a generating station;

 - (c) the installation, inspection, maintenance, adjustment, repair, alteration, replacement or removal of:
 - (i) electric lines specified in paragraph 3 below;

 - (ii) electrical plant associated with such lines; and

 - (iii) any structures for housing or covering such lines or plant;

including, for the avoidance of doubt, whether these activities in sub-paragraph (c) are to be carried out by the licensee or another licence holder.

 - (d) the installation of electrical plant to be used in connection with a generating station or the operation thereof; and/or

 - (e) electric lines or electrical plant as if the references to them in Schedule 4 to the Act included pipes for conveying directly to consumers' premises heat produced in association with electricity and steam produced from air and water heated by such heat and associated works in relation to

such pipes and as if “associated works” had the meaning given in section 10(3) of the Act.

3. Electric lines are specified for the purposes of sub-paragraph (c) of paragraph 2 above and sub-paragraph (b) of paragraph 4 below:

- (a) if they connect, or will connect when installed, a generating station with:

- (i) the national electricity transmission system; or

- (ii) any distribution system;

- (b) where “electric lines” has the extended meaning given by paragraph 2(e) above, if they connect a generating station with any premises.

4. Paragraph 10 of Schedule 4 to the Act shall apply to the licensee if it obtains the consent of the Authority before exercising its rights of entry on land under that paragraph for the purpose of ascertaining whether the land would be suitable for:

- (a) the construction or extension of a generating station; or

- (b) the installation, inspection, maintenance, adjustment, repair, alteration, replacement or removal of the electric lines specified in paragraph 3 above, electrical plant associated with them and any structures for housing or covering such plant, including, for the avoidance of doubt, whether these activities are carried out by the licensee or another licence holder.

5. In this condition:

“authorised activities” means the activities which the licensee is authorised by the licence to carry on, and shall include any purpose connected with the supply to any premises of heat produced in association with electricity and steam produced from air and water heated by such heat;

“generating station”	has the meaning given in paragraph 3 of standard condition 14 (Compulsory Acquisition of Land etc);
“extension”	in relation to a generating station, has the meaning given in paragraph 3 of standard condition 14 (Compulsory Acquisition of Land etc).

Condition 16. Regulatory Accounts

1. Where the Secretary of State provides, by a scheme made under Schedule 7 to the Utilities Act 2000, for this condition to have effect within this licence, the licensee shall be obliged to comply with the requirements of the provisions contained in paragraphs 5 to 14 from the date the said scheme takes effect.

2. The Authority may issue a direction providing that the provisions of paragraphs 5 to 13 shall have effect in this licence. Where the Authority has issued to the licensee a direction, paragraphs 5 to 14 shall have effect within the licence from the date specified in the Authority's direction and the licensee shall be obliged to comply with the requirements of the provisions contained in those paragraphs from the date specified in the Authority's direction.

3. Until:
 - (a) the Secretary of State provides, by a scheme made under Schedule 7 to the Utilities Act 2000, for this condition to have effect within this licence; or
 - (b) the Authority has issued to the licensee a direction for the purposes of this condition,

the provisions contained in paragraphs 5 to 14 shall not have effect within this licence and the licensee shall not be obliged to comply with any of the requirements of such paragraphs.

4. A direction pursuant to paragraph 2 may be issued at any time from the date the Secretary of State determines these standard conditions pursuant to sub-section 33(1) of the Utilities Act 2000.

5. The following paragraphs of this condition apply for the purpose of ensuring that the licensee (and any affiliate or related undertaking) maintains accounting and reporting arrangements which enable regulatory accounts to be prepared for each separate business and showing the financial affairs of each such separate business.

6. Unless the Authority otherwise consents (such consent may be given in relation to some or all of the obligations in this condition and may be given subject to such conditions as the Authority considers appropriate), the licensee shall in respect of each separate business:
 - (a) keep or cause to be kept for the period referred to in section 222(5)(b) of the

Companies Act 1985 and in the manner referred to in that section such accounting records in respect of each separate business as would by section 221 of the Companies Act 1985 be required to be kept in respect of each such business if it were carried on by a separate company, so that the revenues, costs, assets, liabilities, reserves and provisions of, or reasonably attributable to, each separate business are separately identifiable in the accounting records of the licensee (and any affiliate or related undertaking) from those of any other business of the licensee; and

- (b) prepare on a consistent basis from such accounting records in respect of:
 - (i) each financial year, accounting statements comprising a profit and loss account, a statement of total recognised gains and losses, a balance sheet, and a cash flow statement, together with notes thereto, and showing separately in respect of each separate business and in appropriate detail the amounts of any revenue, cost, asset, liability, reserve or provision which has been either:
 - (aa) charged from or to any other business (whether or not a separate business) together with a description of the basis of that charge; or
 - (bb) determined by apportionment or allocation between any separate business and any other business (whether or not a separate business) together with a description of the basis of the apportionment or allocation;
 - (ii) the first six months of each financial year, an interim profit and loss account; and
 - (iii) each financial year, sufficient accounting information in respect of each separate business to allow the preparation of consolidated accounting statements for each separate business of the licensee or, where applicable,

the ultimate holding company of the licensee. Such information shall include a profit and loss account, a statement of total recognised gains and losses, a balance sheet, and a cash flow statement together with notes thereto;

- (c) procure, in respect of the accounting statements prepared in accordance with this condition in respect of each financial year, a report by the auditors and addressed to the Authority stating whether in their opinion those statements have been properly prepared in accordance with this condition and give a true and fair view of the revenues, costs, assets, liabilities, reserves and provisions of, or reasonably attributable to, the separate business to which the statements relate; and
- (d) deliver to the Authority a copy of the account referred to in sub-paragraph (b)(ii), the auditors' report referred to in sub-paragraph (c), the accounting statements referred to in sub-paragraph (b)(i) and accounting information referred to in sub-paragraph b(iii), as soon as reasonably practicable, and in any event not later than three months after the end of the period to which it relates in the case of the account referred to in sub-paragraph (b)(ii) and six months after the end of the financial year to which they relate in the case of the accounting statements, auditors' report and accounting information referred to in sub-paragraphs (b)(i), b(iii) and (c),

provided always that the obligations set out in this paragraph shall not apply where they have already been discharged by the licensee in respect of each separate business pursuant to any other licence.

- 7. Unless the Authority so specifies in directions issued for the purposes of this condition, or with the Authority's prior written approval, the licensee shall not in relation to the accounting statements in respect of a financial year change the bases of charge or apportionment or allocation referred to in sub-paragraph 6(b)(i) from those applied in respect of the previous financial year.
- 8. Where, in relation to the accounting statements in respect of a financial year, the licensee

has changed such bases of charge or apportionment or allocation from those adopted for the immediately preceding financial year, the licensee shall, if so directed in directions issued by the Authority, in addition to preparing accounting statements on those bases which it has adopted, prepare such accounting statements on the bases which applied in respect of the immediately preceding financial year.

9. Accounting statements and information in respect of a financial year prepared under sub-paragraphs 6(b)(i) and 6(b)(iii) shall, so far as reasonably practicable and unless otherwise approved by the Authority having regard to the purposes of this condition:
 - (a) have the same content and format (in relation to each separate business) as the statutory accounts of the licensee prepared under section 226 and, where appropriate, section 227 of the Companies Act 1985 and conform to the best commercial accounting practices including all relevant accounting standards issued or adopted by the Accounting Standards Board currently in force;
 - (b) state the accounting policies adopted; and
 - (c) with the exception of the part of such statements and information which shows separately the amounts charged, apportioned or allocated and describes the bases of charge or apportionment or allocation respectively, be published with the statutory accounts of the licensee.
10. Unless the accounting statements and information prepared under sub-paragraph 6(b)(i) and 6(b)(iii) are prepared on the current cost basis as provided by the alternative accounting rules, the licensee shall, unless otherwise agreed by the Authority, in addition to preparing those accounting statements under that paragraph, prepare accounting statements for each separate business covering the same period, which shall comprise and show separately:
 - (a) a profit and loss account, a statement of total recognised gains and losses, a balance sheet, and a cash flow statement together with notes thereto, which shall:

- (i) include in respect of current costs assets amounts determined on the current cost basis as provided by the alternative accounting rules; and

- (ii) show or disclose the information and other matters required by the alternative accounting rules to be shown or disclosed in accounts where the amounts included in respect of assets covered by any items shown in those accounts have been determined on any basis mentioned in paragraph 31 of section C of Part II of Schedule 4 to the Companies Act 1985;
- (b) in respect of each separate business the adjusted amount of any such provision for depreciation as is referred to in paragraph 32(2) of section C of Part II of Schedule 4 to the Companies Act 1985 and the items shown in the profit and loss account of the separate business for the relevant period which are affected by the determination of amounts on the current cost basis as provided by the alternative accounting rules, including the profit (or loss) before taxation; and
- (c) such other current cost information as is referred to in the handbook as the Authority may reasonably require;

and shall deliver the same, together with an auditors' report prepared in relation to the current cost basis accounting statements in the form referred to in sub-paragraph 6(c), to the Authority within the time limit referred to in sub-paragraph 6(d), and shall (with the exception of the part of such statements and information which shows separately the amounts charged, apportioned or allocated and describes the bases of charge or apportionment or allocation respectively) publish the same with the statutory accounts of the licensee.

11. References in this condition to costs or liabilities of, or reasonably attributable to, any separate business shall be construed as excluding taxation and capital liabilities which do not relate principally to a particular separate business, and interest thereon; and references to any profit and loss account shall be construed accordingly.
12. Without prejudice to paragraph 5 of the terms of this licence, references in this condition to sections of the Companies Act 1985 are references to those provisions as amended, substituted or inserted by the relevant provisions of the Companies Act 1989 and if such

provisions of the Companies Act 1989 are not in force at the date of the grant of this licence shall be construed as if such provisions were in force at such date.

13. For the purposes of paragraph 10:

“alternative accounting rules”	means the rules set out in section C of Part II of Schedule 4 to the Companies Act 1985.
“current costs assets”	means assets of any description mentioned in paragraph 31 of section C of Part II of Schedule 4 to the Companies Act 1985.
“the handbook”	means the handbook issued by the Accounting Standards Committee of the Consultative Committee of Accounting Bodies (CCAB Limited) or any successor body entitled “Accounting for the effects of changing prices: a handbook” in its current edition for the time being or in the event that no such handbook shall be in issue such guidance or publication as may be issued in replacement or substitution therefor.

14. For the purposes of this condition:

“regulatory accounts” means the accounts required to be prepared by the licensee pursuant to this condition.

Condition 16A. Change of Financial Year

1. The application of this condition is subject to the provisions of paragraphs 1 to 5 of standard condition 16 (Regulatory Accounts). Until the issue of a direction by the Authority under paragraphs 2 to 4 of standard condition 16 (Regulatory Accounts), paragraphs 2 to 7 of this condition shall not have effect within the licence.
2. The definition of “financial year” in standard condition 1 (Definitions and Interpretation) shall, for the purpose only of the statutory accounts of the licensee, cease to apply to the licensee from the date the licensee sends a notice to the Authority for that purpose.
3. Such notice:
 - (a) shall specify the date from which, for the purpose set out at paragraph 1, the current and subsequent financial years of the licensee shall run; and
 - (b) shall continue in effect until revoked by the licensee issuing a further notice.
4. While the notice continues in effect the licensee shall procure the preparation of and shall deliver to the Authority audited group accounts for its group of companies for each financial year.
5. Audited group accounts produced in accordance with paragraph 4:
 - (a) shall comprise consolidated group accounts in respect of the group of companies;
 - (b) shall, save insofar as is necessary to reflect a different financial year, have the same form and content as the statutory accounts of the licensee;
 - (c) shall be accompanied by a report by the auditors and addressed to the Authority stating whether in their opinion the audited group accounts have

been properly prepared in accordance with this condition and give a true and fair view of the state of affairs of the group of companies and of its profits or losses, total recognised gains or losses and cash flows during the financial year;

- (d) may, with the prior written consent of the Authority, omit or provide in a different form, specified in the consent, such information as may be specified in the consent; and
 - (e) shall clearly disclose any differences between the accounting policies underlying the preparation of the statutory accounts of the licensee and the accounting policies underlying the preparation of the audited group accounts.
6. The licensee may, for the purpose only of its statutory accounts, change its financial year from that previously notified by sending to the Authority a new notice pursuant to paragraph 2. Where the licensee sends the Authority a new notice the previous notice shall be revoked, as provided by sub-paragraph 3(b). The licensee's financial year-end will change with effect from the date specified in the new notice. The new notice shall specify the licensee's new financial year-end.

7. No provisions of this condition shall apply to the financial year of the licensee as defined in standard condition 1 (Definitions and Interpretation) for the purpose of accounts produced in compliance with standard condition 16 (Regulatory Accounts). No provisions of this condition shall affect the licensee's obligations in respect of payment of licence fees under standard condition 4 (Payments by the Licensee to the Authority).

Condition 16B – Not Used

Condition 17. Prohibition of Discrimination in Selling Electricity

1. Where the Secretary of State provides, by a scheme made under Schedule 7 to the Utilities Act 2000, for this condition to have effect within this licence, the licensee shall be obliged to comply with the requirements of the provisions contained in paragraphs 6 to 13 from the date the said scheme takes effect.

2. Subject to paragraph 3, the Authority may issue a direction providing that paragraphs 6 to 13 shall have effect in this licence. Where the Authority has issued to the licensee a direction, paragraphs 6 to 13 shall have effect within the licence from the date specified in the Authority's direction and the licensee shall be obliged to comply with the requirements of the provisions contained in those paragraphs from that date.

3. Where -
 - (a) the Authority has consented to a disapplication request pursuant to paragraph 10; or
 - (b) the licensee has issued a termination notice pursuant to paragraph 12 or 13,

the Authority shall not thereafter issue a direction pursuant to paragraph 2 to the licensee in respect of the paragraphs to which the termination notice relates until -

 - (i) at least 12 months have elapsed since the date of the termination notice, and
 - (ii) the Authority is of the opinion that circumstances have changed in a material respect.

4. Until:
 - (a) the Secretary of State provides, by a scheme made under Schedule 7 to the Utilities Act 2000, for this condition to have effect within this licence; or

(b) the Authority has issued to the licensee a direction pursuant to paragraph 2,

the provisions contained in paragraphs 6 to 13 shall not have effect within this licence and the licensee shall not be obliged to comply with any of the requirements of those paragraphs.

5. A direction pursuant to paragraph 2 may be issued at any time from the date the Secretary of State determines these standard conditions pursuant to sub-section 33(1) of the Utilities Act 2000.
6. The licensee shall not, and shall procure that any affiliate or related undertaking of the licensee shall not, sell or offer to sell electricity to any one purchaser or person seeking to become a purchaser on terms as to price which are materially more or less favourable than those on which it sells or offers to sell electricity to comparable wholesale purchasers. For these purposes regard shall be had to the circumstances of the sale to such purchasers including (without limitation) volumes, load factors, conditions of interruptibility and the dates and duration of the relevant agreements.
7. For the purposes of paragraph 6, references to selling or sale of electricity
 - (a) do not include sale by way of supply to premises; and
 - (b) include entering into or disposing of the benefit of a contract, which has (or taken together with any other arrangement has) the commercial effect of selling electricity, by conferring rights or obligations (including rights or obligations by way of option) in relation to or by reference to the sale, purchase or delivery of electricity at any time or the price at which electricity is sold or purchased at any time, and purchaser, purchasing and purchase shall be construed accordingly.
8. For the purposes of paragraph 6 of this condition, there shall be disregarded:
 - (a) NFFO qualifying arrangements and Scottish Renewables Obligation; and

- (b) any contract for the supply of electricity (as from time to time amended on or before 30 September 1990 in accordance with its terms or to reflect changed circumstances involving the restructuring of the industry) vested in the licensee under the transfer scheme.
9. A licensee, in whose licence this condition has effect, may make a disapplication request in writing to the Authority. The disapplication request shall specify the paragraphs of this condition to which the request relates and shall state the date (“the disapplication date”, being a date not less than 18 months after the date of delivery of the request) from which the licensee wishes the Authority to agree that the specified paragraphs (or the specified part or parts thereof) shall cease to have effect.
 10. Paragraphs 6 to 13 of this condition shall cease to have effect from the date specified in the disapplication request or such later date as may be agreed, if the licensee delivers to the Authority a disapplication request made in accordance with paragraph 9 and the Authority agrees in writing to the disapplication request.
 11. Save where the Authority otherwise agrees, no further disapplication request pursuant to paragraph 9 may be served within the 12 months following the date on which a report is delivered by the Competition Commission following a reference under paragraph 12 where the report of the Competition Commission did not entitle the licensee to deliver a notice to the Authority under paragraph 13.
 12. If the Authority has not made a reference to the Competition Commission in respect of this licence under section 12 of the Act relating to the modification of this licence by the removal of the paragraphs specified in the disapplication request before the beginning of the period of 12 months which will end with the disapplication date, the licensee may deliver a termination notice to the Authority. Following the service of a termination notice, with effect from the disapplication date or such later date as may be specified in the termination notice such of the paragraphs as are specified in the disapplication request shall cease to have effect in this licence.
 13. If the Competition Commission makes a report on a reference in respect of this

licence made by the Authority relating to the modification of this licence by the removal of the paragraphs specified in the disapplication request and such report does not include a conclusion that the removal of such paragraphs operates or may be expected to operate against the public interest, the licensee may within 30 days after the publication of the report by the Authority in accordance with section 13 of the Act deliver a termination notice to the Authority. With effect from the disapplication date or such later date as may be specified in the termination notice such paragraphs as are specified in the disapplication request and in respect of which the Competition Commission report does not include the aforementioned conclusion shall cease to have effect in this licence.

Condition 17A. Prohibition of Cross-Subsidies

1. Where the Secretary of State provides, by a scheme made under Schedule 7 to the Utilities Act 2000, for this condition to have effect within this licence, the licensee shall be obliged to comply with the requirements of the provisions contained in paragraphs 6 to 12 from the date the said scheme takes effect.

2. Subject to paragraph 3, the Authority may issue a direction providing that paragraphs 6 to 12 shall have effect in this licence. Where the Authority has issued to the licensee a direction, paragraphs 6 to 12 shall have effect within the licence from the date specified in the Authority's direction and the licensee shall be obliged to comply with the requirements of the provisions contained in those paragraphs from that date.

3. Where -
 - (a) the Authority has consented to a disapplication request pursuant to paragraph 9; or
 - (b) the licensee has issued a termination notice pursuant to paragraph 11 or 12,

the Authority shall not thereafter issue a direction pursuant to paragraph 2 to the licensee in respect of the paragraphs to which the termination notice relates until -

 - (i) at least 12 months have elapsed since the date of the termination notice, and
 - (ii) the Authority is of the opinion that circumstances have changed in a material respect.

4. Until:
 - (a) the Secretary of State provides, by a scheme made under Schedule 7 to the

Utilities Act 2000, for this condition to have effect within this licence; or

(b) the Authority has issued to the licensee a direction pursuant to paragraph 2,

the provisions contained in paragraphs 6 to 12 shall not have effect within this licence and the licensee shall not be obliged to comply with any of the requirements of those paragraphs.

5. A direction pursuant to paragraph 2 may be issued at any time from the date the Secretary of State determines these standard conditions pursuant to sub-section 33(1) of the Utilities Act 2000.
6. The licensee shall procure that the generation business shall not give any cross-subsidy to, or receive any cross-subsidy from, any other business of the licensee or an affiliate or related undertaking of the licensee.
7. For the purposes of paragraphs 6 of this condition, there shall be disregarded:
 - (a) NFFO qualifying arrangements and Scottish Renewables Obligations; and
 - (b) any contract for the supply of electricity (as from time to time amended on or before 30 September 1990 in accordance with its terms or to reflect changed circumstances involving the restructuring of the industry) vested in the licensee under the transfer scheme.
8. A licensee, in whose licence this condition has effect, may make a disapplication request in writing to the Authority. The disapplication request shall specify the paragraphs of this condition to which the request relates and shall state the date (“the disapplication date”, being a date not less than 18 months after the date of delivery of the request) from which the licensee wishes the Authority to agree that the specified paragraphs shall cease to have effect.

9. Paragraphs 6 to 12 of this condition shall cease to have effect from the date specified in the disapplication request or such later date as may be agreed, if the licensee delivers to the Authority a disapplication request made in accordance with paragraph 8 and the Authority agrees in writing to the disapplication request.
10. Save where the Authority otherwise agrees, no further disapplication request pursuant to paragraph 8 may be served within the 12 months following the date on which a report is delivered by the Competition Commission following a reference under paragraph 11 where the report of the Competition Commission did not entitle the licensee to deliver a notice to the Authority under paragraph 12.
11. If the Authority has not made a reference to the Competition Commission in respect of this licence under section 12 of the Act relating to the modification of this licence by the removal of the paragraphs specified in the disapplication request before the beginning of the period of 12 months which will end with the disapplication date, the licensee may deliver a termination notice to the Authority. Following the service of a termination notice, with effect from the disapplication date or such later date as may be specified in the termination notice such of the paragraphs as are specified in the disapplication request shall cease to have effect in this licence.
12. If the Competition Commission makes a report on a reference in respect of this licence made by the Authority relating to the modification of this licence by the removal of the paragraphs specified in the disapplication request and such report does not include a conclusion that the removal of such paragraphs operates or may be expected to operate against the public interest, the licensee may within 30 days after the publication of the report by the Authority in accordance with section 13 of the Act deliver a termination notice to the Authority. With effect from the disapplication date or such later date as may be specified in the termination notice such paragraphs as are specified in the disapplication request and in respect of which the Competition Commission report does not include the aforementioned conclusion shall cease to have effect in this licence.

Condition 18. Generating Unit Availability

1. Where the Secretary of State provides, by a scheme made under Schedule 7 to the Utilities Act 2000, for this condition to have effect within this licence, the licensee shall be obliged to comply with the requirements of the provisions contained in paragraph 7 to 17 from the date the said scheme takes effect.

2. Subject to paragraph 3, the Authority may issue a direction providing that paragraphs 7 to 17 shall have effect in this licence. Where the Authority has issued to the licensee a direction, paragraphs 7 to 17 shall have effect within the licence from the date specified in the Authority's direction and the licensee shall be obliged to comply with the requirements of the provisions contained in those paragraphs from that date.

3. Where -
 - (a) the Authority has consented to a disapplication request pursuant to paragraph 13; or
 - (b) the licensee has issued a termination notice pursuant to paragraph 15 or 16, the Authority shall not thereafter issue a direction pursuant to paragraph 2 to the licensee in respect of the paragraphs (or any part or parts thereof) to which the termination notice relates until –
 - (i) at least 12 months have elapsed since the date of the termination notice, and
 - (ii) the Authority is of the opinion that circumstances have changed in a material respect.

4. Until:
 - (a) the Secretary of State provides, by a scheme made under Schedule 7 to the Utilities Act 2000, for this condition to have effect within this licence; or
 - (b) the Authority has issued to the licensee a direction for the purposes of this condition,

the provisions contained in paragraphs 7 to 17 shall not have effect within this licence and the licensee shall not be obliged to comply with any of the requirements of such paragraphs.

5. Where the Authority has issued to the licensee a direction pursuant to paragraph 2, the provisions contained in paragraphs 7 to 17 shall be deemed to have effect within the licence and shall apply to the licensee from the date specified in the Authority's direction.
6. A direction pursuant to paragraph 2 may be issued at any time from the date the Secretary of State determines these standard conditions pursuant to sub-section 33(1) of the Utilities Act 2000.
7. The purpose of this condition is to enable the Authority to keep under review the behaviour of the licensee to ascertain whether the licensee is pursuing a course of conduct in making or declining (whether temporarily or permanently) to make available generating units owned or operated by the licensee which is intended to have or is likely to have the effect of restricting, distorting or preventing competition in the generation or supply of electricity.
8. The licensee shall within 2 months of the Authority's direction under paragraph 2 prepare a statement, for approval as to form by the Authority, specifying in reasonable detail the criteria upon which the licensee will, for the purpose of planning the availability of generating units:
 - (a) determine its policy regarding the closure, whether permanent or temporary, of any generating units; and
 - (b) determine its policy regarding the reduction in capacity of any generating units.
9. (a) Where the licensee is required, pursuant to the Grid Code, to provide information to the ISOP relating to planned availability of any generating unit operated by the licensee, then, where applicable, in respect of each planned availability period, as soon as is reasonably practicable and in any event no later than 2 months from the end of the planned availability period in question, the licensee shall provide the Authority with a statement setting out in reasonable detail the information specified in sub-paragraph (b).

- (b) The information referred to in sub-paragraph (a) shall, in respect of each generating unit involved, comprise the following:
 - (i) details of any material differences between the actual availability and the information specified in sub-paragraph (a) relating to planned availability, such information to include the date and duration of any unavailability; and
 - (ii) an explanation (with appropriate supporting technical information) as to how each such difference has arisen.
10. (a) The licensee shall give notice to the Authority of the date upon which it is intended:
- (i) to close permanently or close temporarily any power station; or
 - (ii) to make a material reduction in the registered capacity of any power station,
- and shall use its reasonable endeavours to give that notice not less than six months prior to the date of the intended closure or reduction in capacity.
- (b) A notice under sub-paragraph (a) shall specify the power station to which it relates, the intended date of closure or reduction in capacity and, if in respect of sub-paragraph (a)(ii), shall also specify:
- (i) the existing and proposed registered capacity;
 - (ii) the expected duration of the reduction in capacity;
 - (iii) the reasons for the reduction in capacity; and
 - (iv) (if the reduction is as a result of the cessation of operation of a generating unit or units) whether it would be practicable for that generating unit or those units (on the assumption, if not the case, that it or they were operational) to be operated separately from the other unit or units of that station and, if not, the reasons therefore.
- (c) For the purpose of this paragraph :
- (i) a reduction of more than 10 per cent in the registered capacity of an open cycle gas turbine generating unit is material;
 - (ii) subject to (c)(i), a reduction in capacity is material if it will reduce the

registered capacity of a power station by more than 25 megawatts or more than 10 per cent whichever is the lesser; and

- (iii) "close temporarily" means to close or not to make available for a period greater than one year but not permanently.

11. (a) Within one month of delivery of a notice under paragraph 10(a)(i), the licensee shall provide to the Authority a statement setting out in reasonable detail:

- (i) (if in relation to any closure of a power station) the reasons for the decision referred to in the notice;
- (ii) (if in respect of a temporary closure of a power station) the circumstances in which the licensee expects to recommence operating the power station; and
- (iii) (if in respect of a permanent closure of a power station) the licensee's proposals for use or disposal of the site and the plant, and alternative proposals considered and the reason for adopting the chosen proposal.

(b) The licensee shall provide to such independent and competent assessor (if any) as may be appointed by the Authority with the approval of the licensee (such approval not to be unreasonably withheld) such information (in addition to that contained in any notice under paragraph 10(a)(i) or the statement under paragraph 11(a)) as the assessor may reasonably require to enable him to provide to the Authority and the licensee within two months of his appointment (or such longer period as the Authority may approve) an assessment of whether the above decision process and result were reasonable, taking into account all the relevant circumstances and opportunities, identifying the direct and indirect financial implications for the licensee, and the amounts if any which third parties have offered or would be likely to pay to purchase or lease the plant or site and associated facilities whether or not for use as an operating power station.

12. A licensee, in whose licence this condition has effect, may make a disapplication request in writing to the Authority. The disapplication request shall specify the paragraphs of this condition (or any part or parts thereof) to which the request relates

and shall state the date ("the disapplication date", being a date not less than 18 months after the date of delivery of the request) from which the licensee wishes the Authority to agree that the specified paragraphs (or the specified part or parts thereof) shall cease to have effect.

13. Paragraphs 7 to 17 of this condition (or any part or parts thereof) shall cease to have effect from the date specified in the disapplication request or such later date as may be agreed, if the licensee delivers to the Authority a disapplication request made in accordance with paragraph 12 and the Authority agrees in writing to the disapplication request.
14. Save where the Authority otherwise agrees, no further disapplication request pursuant to paragraph 12 may be served within 12 months following the date on which a report is delivered by the Competition Commission following a reference under paragraph 15 where the report of the Competition Commission did not entitle the licensee to deliver a notice to the Authority under paragraph 16.
15. If the Authority has not made a reference to the Competition Commission in respect of this licence under section 12 of the Act relating to the modification of this licence by the removal of the paragraphs (or any part or parts thereof) specified in the disapplication request before the beginning of the period of 12 months which will end with the disapplication date, the licensee may deliver a termination notice to the Authority. Following the service of a termination notice, with effect from the disapplication date or such later date as may be specified in the termination notice such of the paragraphs (or any part or parts thereof) as are specified in the disapplication request shall cease to have effect in this licence.
16. If the Competition Commission makes a report on a reference in respect of this licence made by the Authority relating to the modification of this licence by the removal of the paragraphs (or any part or parts thereof) specified in the disapplication request and such report does not include a conclusion that the removal of such paragraphs (or any part or parts thereof) operates or may be expected to operate against the public interest, the licensee may within 30 days after the publication of the report by the Authority in accordance with section 13 of the Act deliver a termination

notice to the Authority. With effect from the disapplication date or such later date as may be specified in the termination notice such paragraphs (or any part or parts thereof) as are specified in the disapplication request and in respect of which the Competition Commission report does not include the aforementioned conclusion shall cease to have effect in this licence.

17. In this condition:

"registered capacity";	each shall have the same meaning as in the
"generating unit",	Grid Code, but as if in relation to a power
"power station" and	station the registered capacity means the
"settlement period"	aggregate of the registered capacity of the
	generating units forming part of that power
	station;
"planned availability period"	means each period of 4 successive weeks,
	the first such period to begin on the first date
	in respect of which the licensee is required,
	pursuant to the Grid Code, to provide the
	information specified in sub-paragraph 9(a)
	of this condition.

- (a) This condition does not apply to any generating unit having a registered capacity of [10] megawatts or less.
- (b) Unless the Authority otherwise directs, any reference to generating unit or power station shall mean, respectively, each generating unit owned or operated by the licensee forming part of a power station owned or operated by the licensee which is capable of providing 100 megawatts or more to the total system being the distribution systems of all authorised electricity operators and the national electricity transmission system.

Condition 19. Compliance with CUSC

1. Insofar as the licensee shall construct or operate a generating station, the licensee shall be a party to the CUSC Framework Agreement and shall comply with the CUSC.
2. The licensee shall take all reasonable steps to secure and implement (consistently with the procedures applicable under or in relation to core industry documents to which it is a party (or in relation to which it holds rights in respect of amendment), as modified or replaced from time to time), and shall not take any steps to prevent or unduly delay, changes to the those documents, such changes being changes which are appropriate in order to give full and timely effect to and/or in consequence of any modification which has been made to the CUSC.
3. For the avoidance of doubt, paragraph 2 is without prejudice to any rights of approval, veto or direction in respect of proposed changes to the core industry documents which the Authority may have.
4. In this condition:

"core industry documents"

means those documents which:

- (a) in the Secretary of State's opinion are central industry documents associated with the activities of the licensee and authorised electricity operators, the subject matter of which relates to or is connected with the CUSC or connection and use of system arrangements; and

- (b) have been so designated by the Secretary of State.

"CUSC"

means the connection and use of system code required to be in place pursuant to the electricity system operator licence granted to the ISOP, as from time to time modified.

"CUSC Framework Agreement"

means the agreement of that title, in the form approved by the Secretary of State, by which the CUSC is made contractually binding between the parties to that agreement, as amended from time to time with the approval of the Secretary of State.

Condition 19B . BETTA run-off arrangements scheme

1. The licensee shall, to the extent applicable to it, comply with the BETTA run-off arrangements scheme ("the scheme") established and as modified from time to time in accordance with this condition.

2. For the purposes of this condition, the objective of the scheme shall be the running-off of the non-GB trading and transmission arrangements to the extent that the Authority considers it necessary or expedient to do so to ensure that those arrangements do not prevent or in any way hinder the successful and effective implementation of:
 - (a) the modifications to this licence and each other licence made or to be made by the Secretary of State pursuant to the powers vested in her under Chapter 1 of Part 3 of the Energy Act 2004 (Electricity trading and transmission);

 - (b) the modifications or amendments to:
 - (i) the BSC, CUSC and the Grid Code which are designated by the Secretary of State on or before 8 September 2004 pursuant to the powers vested in her under Chapter 1 of Part 3 of the Energy Act 2004 (Electricity trading and transmission) or pursuant to any power under this or any other licence; and

 - (ii) the STC, BSC, CUSC, Grid Code or any Scottish grid code which are directed by the Authority pursuant to the following provisions of the standard conditions for electricity transmission licences: paragraph 7 of standard condition B12 (System Operator – Transmission Owner Code (STC)) which applied during the transition period, paragraph 6 of standard condition C3 (Balancing and Settlement Code (BSC)) which applied during the transition period, paragraph 8 of standard condition C10 (Connection and Use of System Code (CUSC)) which applied during the transition period, paragraph 8 of standard condition C14 (Grid Code) which applied during the transition period and paragraph 6 of standard condition D9 (Licensee's grid code) which

applied during the transition period respectively; and

- (b) the provisions of the STC which are designated by the Secretary of State on or before 8 September 2004 pursuant to the powers vested in her under Chapter 1 of Part 3 of the Energy Act 2004 (Electricity trading and transmission) or pursuant to any power under this or any other licence,

and the matters envisaged by such modifications or amendments or the STC, as appropriate.

3. The scheme shall be designated by the Secretary of State for the purposes of this condition, following such consultation as the Secretary of State deems appropriate with those persons that the Secretary of State considers are likely to be affected by the scheme and such other persons as the Secretary of State deems appropriate.
4. The scheme shall set out the steps to be taken (or procured) by the licensee or by any authorised electricity operator or by any other person who undertakes to comply with the scheme, which are, in the opinion of the Secretary of State or, in respect of any subsequent changes made to the scheme by the Authority pursuant to paragraph 6 below, in the opinion of the Authority, reasonably required in order to achieve the objective described in paragraph 2.
5. The scheme may provide, without limitation:
 - (a) for all or some of its provisions to have contractual force;
 - (b) for securing or facilitating the amendment of all or any of the relevant documents in a manner which is consistent with the objective described in paragraph 2; and
 - (c) for the making by the Authority of determinations in respect of such matters affecting such persons, including the licensee, as may be specified in the scheme.

6. The Authority may (with the consent of the Secretary of State) direct that the scheme be amended (following such consultation as the Authority deems appropriate with those persons that the Authority considers are likely to be affected by such an amendment) where the Authority considers it necessary or expedient to do so for the purposes of achieving the objective described in paragraph 2.
7. The Authority shall serve a copy of any such direction on the licensee, and thereupon, the licensee shall comply with the scheme as modified by the direction.
8. If the licensee becomes aware of any conflict between the requirements contained in the scheme and those imposed on the licensee by any other condition of this licence, the licensee shall forthwith give notice of such conflict to the Authority and shall comply with any direction of the Authority in relation to the same (which direction may only be made following such consultation with the licensee (and such other persons as the Authority deems appropriate) in such manner as the Authority deems appropriate).
9. The Authority may not make any direction under paragraph 6 of this condition after the BETTA go-live date.
10. In this condition:

"British Grid Systems Agreement" means the agreement known as the British Grid Systems agreement and made between The National Grid Company plc, Scottish Hydro-Electric Plc and Scottish Power Plc and dated 30 March 1990, as amended or modified from time to time.

"interconnection" means:

the 275kV and 400kV circuits between and

including the associated switchgear at Harker sub-station in Cumbria and the associated switchgear at Strathaven sub-station in Lanarkshire;

the 275kV transmission circuit between and including the associated switchgear at Cockenzie in East Lothian and the associated switchgear at Stella in Tyne and Wear; and

the 400kV transmission circuit between and including the associated switchgear at Torness in East Lothian and the associated switchgear at Stella in Tyne and Wear

all as existing at the date on which the transmission licence of each existing Scottish licensee comes into force as from time to time maintained, repaired or renewed, together with any alteration, modification or addition (other than maintenance, repair or renewal) which is primarily designed to effect a permanent increase in one or more particular interconnection capacities as they exist immediately prior to such alteration, modification or addition and as from time to time maintained, repaired or renewed; and

the 132kV transmission circuit between and including (and directly connecting) the associated switchgear at Chapelcross and the associated switchgear at Harker sub-station in Cumbria, and

the 132kV transmission circuit between and including (and connecting, via Junction V) the associated switchgear at Chapelcross and the associated switchgear at Harker sub-station in Cumbria,

all as existing at the date on which the transmission licence of each existing Scottish licensee comes into force and as from time to time maintained, repaired or renewed.

"non-GB trading and transmission arrangements" means those arrangements for, amongst other things, the separate trading or transmission of electricity in Scotland, the separate trading or transmission of electricity in England and Wales and the trading or transmission of electricity between England and Wales (taken as a whole) and Scotland which are defined and governed by, amongst other things, the relevant documents.

"relevant documents" means the documents which relate to the non-GB trading and transmission arrangements, including, without limitation,

- (a) the Settlement Agreement for Scotland;
- (b) the British Grid System Agreement;
- (c) the System Operation Agreement; and
- (d) any agreement relating to:

- (i) the establishment of, operation of, or trading of electricity across the Scottish interconnection;
- (ii) the use of, or connection to, the Scottish interconnection; and
- (iii) the use of, or connection to, a distribution system in Scotland or a licensee's transmission system in Scotland.

"running-off"	means bringing to an end.
"Scottish interconnection"	means such part of the interconnection as is situated in Scotland.
"Scottish licensee"	means the holder of a transmission licence at the date that this condition takes effect in the licensee's transmission licence.
"Settlement Agreement for Scotland"	has the meaning given to it in standard condition C1 (Definitions).
"System Operation Agreement"	means the agreement known as the System Operation agreement and made between Scottish Hydro-Electric Plc and Scottish Power Plc and dated 1 June 1990, as amended or modified from time to time.
"transition period"	"transition period" means the period commencing on 1 September 2004 and ending on the BETTA go-live date.

Condition 20 . Not Used

Condition 20A. Transmission Constraint Licence Condition

1. The licensee must not obtain an excessive benefit from electricity generation in relation to a Transmission Constraint Period.
2. For the purposes of paragraph 1, the licensee shall be considered to have obtained an excessive benefit from electricity generation in relation to a Transmission Constraint Period if:
 - (a) the licensee and the ISOP enter into, or have entered into, Relevant Arrangements which related to a Transmission Constraint Period; and
 - (b) under the Relevant Arrangements and in connection with a reduction in electricity generation in the Transmission Constraint Period, either:
 - (i) the licensee pays, or seeks to pay, the ISOP an excessively low amount; or
 - (ii) the licensee is paid, or seeks to be paid, an excessive amount by the ISOP.
3. For the purposes of paragraph 2 the reference to a reduction in generation by the licensee in a Transmission Constraint Period means:
 - (a) a reduction in comparison to the licensee's Notified Electricity Generation for that Transmission Constraint Period; and
 - (b) a reduction in generation of electricity by a particular generating plant, whether or not there is an overall reduction in electricity generation in that Transmission Constraint Period.
4. This licence condition shall be interpreted and enforced in accordance with guidance published by the Authority.
5. Before this condition comes into force the Authority shall publish the guidance referred to in paragraph 4.
6. Before the Authority publishes the guidance referred to in paragraph 4 the Authority shall consult:
 - (a) the holder of any licence under section 6(1)(a) of the Act; and
 - (b) such other persons as the Authority thinks it appropriate to consult.
7. The Authority may from time to time revise the guidance referred to in paragraph 4 and before issuing any such revised guidance the Authority shall consult such person as specified in paragraph 6 setting out the text of, and the reasons for, the proposed revisions.
8. The licensee shall provide to the Authority, in such manner and at such times as the Authority may reasonably require, such information as the Authority may require or deem necessary or appropriate to enable the Authority to monitor the licensee's

compliance with this condition.

9. In this condition:

“Balancing Mechanism”	means the mechanism for the making and acceptance of offers and bids to increase or decrease the quantities of electricity to be delivered to, or taken off, the total system at any time or during any period so as to assist the ISOP in coordinating and directing the flow of electricity onto and over the national electricity system and balancing the national electricity system pursuant to the arrangements contained in the BSC;
“Notified Electricity Generation”	means the intended level of generation notified by the licensee to the ISOP for a period pursuant to the notification arrangements established by BETTA and the BSC;
“Relevant Arrangements”	means arrangements entered into by the licensee and the ISOP within the Balancing Mechanism, and the entering of such arrangements shall include the making of a bid by the licensee whether or not that bid is accepted by the ISOP;
“Transmission Constraint”	<p>means any limit on the ability of the National Electricity Transmission System, or any part of it, to transmit the power supplied onto the National Electricity Transmission System to the location where the demand for that power is situated, such limit arising as a result of factors such as:</p> <ul style="list-style-type: none"> (a) the need not to exceed the thermal rating of any asset forming part of the National Electricity Transmission System; (b) the need to maintain voltage on the National Electricity Transmission System; and (c) the need to maintain the transient and dynamic stability of electricity plant, equipment and systems directly or indirectly connected to the National Electricity Transmission System; <p>and such limit being used by the ISOP to operate the National Electricity Transmission System in accordance with the National Electricity Transmission System Security and Quality of Supply Standard referred to in condition E7 (Transmission system security standard and quality of service) of the conditions of the electricity system operator</p>

	licences or any other provision of the transmission licence, electricity system operator licence, the Act or any other requirement of law;
“Transmission Constraint Period”	means any period of time, regardless of the duration, when a Transmission Constraint occurs.

Condition 20B. Inflexible Offers Licence Condition

1. The licensee must not obtain an excessive benefit from electricity generation in respect of a Settlement Period in relation to which it has revised its Physical Notification (in respect of a unit which has a Minimum Zero Time of longer than 60 minutes) from a positive MW value to zero MW within the Operational Day.
2. For the purposes of paragraph 1, the licensee shall be considered to have obtained an excessive benefit from electricity generation in relation to a Settlement Period (where each of the other requirements of paragraph 1 is met) if each of the following conditions apply in relation to that Settlement Period:
 - (a) the licensee and the ISOP enter into, or have entered into, Relevant Arrangements in respect of a Balancing Mechanism Unit owned or operated by the licensee; and
 - (b) under the Relevant Arrangements and in connection with an increase in electricity generation the licensee is paid or seeks to be paid, an excessive amount by the ISOP.
3. For the purposes of paragraph 2 the reference to an increase in electricity generation by the licensee in respect of a particular Settlement Period means an increase in comparison to the licensee's Physical Notification of zero MW.
4. This licence condition shall be interpreted and enforced in accordance with guidance published by the Authority.
5. Before this condition comes into force the Authority shall publish the guidance referred to in paragraph 4.
6. Before the Authority publishes the guidance referred to in paragraph 4 the Authority shall consult:
 - (a) the holder of any licence under section 6(1)(a) of the Act; and
 - (b) such other persons as the Authority thinks it appropriate to consult.

7. The Authority may from time to time revise the guidance referred to in paragraph 4 and before issuing any such revised guidance the Authority shall consult such person as specified in paragraph 6 setting out the text of, and the reasons for, the proposed revisions.
8. The licensee shall provide to the Authority, in such manner and at such times as the Authority may reasonably require, such information as the Authority may require or deem necessary or appropriate to enable the Authority to monitor the licensee's compliance with this condition.
9. In this condition:

“Balancing Mechanism”	means the mechanism for the making and acceptance of offers and bids to increase or decrease the quantities of electricity to be delivered to, or taken off, the total system at any time or during any period so as to assist the ISOP in coordinating and directing the flow of electricity onto and over the national electricity transmission system and balancing the national electricity system pursuant to the arrangements contained in the BSC
“Balancing Mechanism Unit”	means a unit of trade within the Balancing Mechanism
“Minimum Zero Time”	means either the minimum time that a Balancing Mechanism Unit which has been exporting must operate at zero or be importing, before returning to exporting or the minimum time that a BM Unit which has been importing must operate at zero or be exporting before returning to importing, as a result of a Bid-Offer Acceptance, such minimum time being as per the most recent notification by the licensee to the ISOP pursuant to the Grid Code
“Operational Day”	has the meaning given in the Grid Code
“Physical Notification”	means a notification of the intended level of generation made by the licensee to the ISOP for a period pursuant to the notification arrangements established by BETTA and the BSC
“Relevant Arrangements”	means arrangements entered into by the licensee and the ISOP within the Balancing Mechanism, and the entering of such arrangements shall include the making of an offer by the licensee whether or not that offer is accepted by the ISOP
“Settlement Period”	has the meaning given in the Grid Code

Condition 21: Elexon ownership

1. The licensee must hold one share in Elexon if they are directed to do so by the Secretary of State or the Authority with effect from the date specified in the direction.
2. The licensee may delegate any responsibility for holding a share in Elexon to one of their wholly owned affiliates that is a signatory to the BSC.
3. Where the responsibility for holding a share in Elexon is delegated in accordance with paragraph 2, the licensee must inform the Secretary of State and the Authority:
 - (a) of the name of the party to whom responsibility is delegated;
 - (b) if the responsibility for holding a share is delegated to another wholly owned affiliate of the licensee in future; and
 - (c) if the party to whom responsibility is delegated ceases to be a wholly owned affiliate of the licensee.
4. Once directed under paragraph 1, the licensee must inform the Secretary of State and the Authority about a change in the corporate relationship between the licensee and any affiliate of the licensee specified in the direction.
5. The Secretary of State or the Authority may issue a direction revoking any requirement on the licensee to hold a share in Elexon.

PART II – SECTION C : Supplementary Standard Conditions for Scotland**Condition C1. Definitions**

In this Section:

"Settlement Agreement for Scotland"

means the agreement of that title, as nominated by the Authority for the purposes of this Section, prepared in accordance with, and comprising such matters as are set out in special condition I (The Settlement Agreement for Scotland) of each of the electricity distribution licences of SP Distribution Limited, Southern Electric Power Distribution plc, and Scottish Hydro-Electric Power Distribution Limited (and any other name by which any of these companies come to be known).

Condition C2. Not used

Condition C3. Security Arrangements (Scotland)

1. (a) If so directed in directions issued by the Authority for the purposes of this Section, the licensee shall, not later than such date as may be specified in such directions, enter into an agreement designated by the Secretary of State for the purposes of this Section relating to compliance with directions issued by the Secretary of State under section 34 and/or section 35 of the Act.
- (b) The licensee shall comply with and perform its obligations under any agreement which it enters into pursuant to sub-paragraph (a) above.

Condition C4. Compliance with Settlement Agreement for Scotland

1. Subject to paragraphs 2 and 3, the licensee shall when this condition comes into force be a party to and thereafter comply with the provisions of the Settlement Agreement for Scotland.
2. The Authority may (with the consent of the Secretary of State and following consultation with the licensee and such other persons as the Authority determines appropriate) where it considers it consistent with, or necessary or expedient for, the successful implementation and operation of BETTA, issue directions relieving the licensee of such of its obligations under this condition (whether in part or in whole) as the Authority deems appropriate.
3. This condition shall only apply to the licensee if the licensee is a party to the Settlement Agreement for Scotland before the BETTA go-live date.

PART II - SECTION D: Supplementary Standard Conditions for Nuclear Generators**Condition D1. Definitions**

In this Section:

“nuclear generation business” means the authorised business of the licensee in:

- (a) the generation of electricity:
 - (i) from any one or more of the nuclear generation sets situated on a site in respect of which a licence has been issued and is in force under the Nuclear Installations Act; or
 - (ii) from generation sets situated on or adjacent to such sites and the generation from which is required by the relevant safety case to be used wholly (except during testing periods required by such safety case) for the purpose of, or in conjunction with, the generation of electricity from nuclear generation sets or for any related nuclear activities;
- (b) the provision of ancillary services from such generation sets;

(c) related nuclear activities; and

(d) related nuclear research activities.

“related nuclear activities”

means in relation to any nuclear generation plant of the licensee or any affiliate or related undertaking of the licensee, the storage, treatment or reprocessing of nuclear fuel, the treatment, storage or disposal of radioactive waste and the decommissioning of nuclear installations whether such activities are carried out by or on behalf of the licensee or any affiliate or related undertaking of the licensee.

“related nuclear research activities”

means research or consultancy work done wholly or mainly on behalf of the nuclear generation business the results of which are intended to be available for the purposes of that business, whether or not the results of that research or consultancy are also sold or made available to third parties or to any other business of the licensee, but shall not include research or consultancy work commissioned by and for the benefit of a third party.

Condition D2. Consultation with the Nuclear Installations Inspectorate

1. Where the Authority may issue directions under paragraph 2 of each of the following standard conditions:

Condition 5 (Compliance with the Grid Code), or

Condition 6 (Compliance with Distribution Codes)

following consultation by the Authority as referred to in those standard conditions (respectively), the Authority's consultation will include consultation with the Nuclear Installations Inspectorate.

Condition D3. Compulsory Acquisition of Land etc

1. The powers and rights conferred by or under the provisions of Schedule 3 to the Act shall have effect for the purposes set out in paragraph 2 of standard condition 14 (Compulsory Acquisition of Land etc.) in respect of the licensee's nuclear generation business for the following additional purposes:
 - (a) the construction or extension of facilities for the storage treatment or despatch of nuclear fuel or radioactive waste (together with the operational discharge of liquid or gaseous radioactive waste) which arises from generation sets of the licensee; and
 - (b) activities connected with the construction or extension or operation of facilities for the storage, treatment or despatch of nuclear fuel or radioactive waste (together with the operational discharge of liquid or gaseous radioactive waste) which arises from generation sets of the licensee.

Condition D4. Other Powers etc

1. The powers and rights conferred by or under the provisions of Schedule 4 to the Act, shall subject to paragraph 4 of standard condition 15 (Other Powers etc), have effect in respect of the licensee's nuclear generation business and may be exercised by the licensee carrying out works relating to the installation of electrical plant to be used:
 - (a) in connection with a generating station or facilities for the storage, treatment or despatch of nuclear fuel or radioactive waste (together with the operational discharge of liquid or gaseous radioactive waste) which arises from generation sets of the licensee; or
 - (b) in connection with the operation of such station or facilities.
2. Paragraph 10 of Schedule 4 to the Act shall apply to the licensee if it wishes to exercise its rights of entry on land for the purpose of establishing whether or not the land is suitable for the construction or extension of a generating station or of facilities for the storage, treatment or despatch of nuclear fuel or radioactive waste (together with the operational discharge of liquid or gaseous radioactive waste) which arises from generation sets of the licensee or for use in connection with the decommissioning of a generating station.

Condition D5. Ancillary Services

10. The obligation under paragraph 1 of standard condition 11 (Ancillary Services) shall not apply to the extent that the licensee is unable to provide ancillary services from a particular generation set without being in breach of the terms of any licence issued under the Nuclear Installations Act 1965.

PART II - SECTION E: Supplementary Standard Conditions for electricity storage**Condition E1. Requirement to provide storage information**

1. The licensee must provide to the relevant supplier the information specified in accordance with paragraph 2 insofar as it relates to an electricity storage facility which is owned or operated by the licensee and which is situated at premises to which electricity is supplied by the relevant supplier.
2. The following information is specified information for the purposes of paragraph 1 above:
 - (a) Confirmation of the electricity supplier to each electricity storage facility; and
 - (b) For each electricity storage facility:
 - (i) The technology type, power and capacity of the electricity storage facility;
 - (ii) Where and to which transmission or distribution network the electricity storage facility is connected;
 - (iii) If an electricity storage facility is co-located at the same premises with a final consumer(s) (either as a single electricity storage facility or in aggregate with multiple electricity storage facilities), how it is or they are connected and the relationship between the final consumer(s) and licensee; and
 - (iv) The metering arrangements in place between the electricity storage facility and final consumer at the electricity storage facility.

3. The licensee must comply with paragraph 1 within either:

(a) This condition comes into force; or

(b) The electricity storage facility becomes operational (whichever is later),

and update their relevant supplier as soon as reasonably practicable following any change in the information specified in accordance with paragraph 2 in relation to every electricity storage facility it owns or operates.

4. The Authority may give a direction in writing to direct changes to the information specified in accordance with paragraph 2 as the Authority thinks reasonable in all the circumstances of the case.

5. The Authority may, after consulting with the licensee, give a direction in writing (“a derogation”) to the licensee that relieves it of its obligations under this condition to such extent, for such period of time, and subject to such conditions as the Authority thinks reasonable in all the circumstances of the case as may be specified in the direction.

6. In this Section:

“Final consumer”	means a final consumer of electricity (not including supply to premises occupied by a licensee for the purpose of carrying on activities which he is authorised by his licence to carry on).
“Relevant supplier”	means the holder of an electricity supply licence who supplies electricity to the specific premises that includes an electricity storage facility.
